

Building a Strengths-Based School in K-12 Course Series

Develop Student Strengths

INSTRUCTOR-LED COURSE

Building a strengths-based school means harnessing the potential of educators and students to empower individuals to do what they do best. Integrating strengths into a school requires implementing strategies that affect all aspects of the school and capitalizing on a systematic strengths-based development process for educators and students. Gallup created a series comprising three courses to help participants build a strengths-based school. The three courses in the series are:

The Develop Student Strengths course will provide participants with the tools to guide students through a comprehensive strengths development process.

Who Should Attend

This course is for student-facing educators.

What You Can Expect

Great educators appreciate that all students have a set of talents that if recognized and developed will lead them to achieve long-term success. Having subject-matter knowledge alone is not enough to be a highly effective educator. Knowing your students is equally as important. Strengths-based development that uses StrengthsSpotting, Clifton StrengthsExplorer or CliftonStrengths can help educators understand each student's uniqueness and students discover and develop their unique talents.

This course will provide participants with information to help them develop students' strengths. During this course participants will:

- learn about strengths-based education concepts and their impact on students
- examine strengths development lessons to implement with students of all ages
- plan a comprehensive strengths development approach for students

Program Format

Half-day course

Prerequisites

Each participant must complete the CliftonStrengths assessment.

Course Overview

Strengths in K-12

Develop Student Strengths

The Strengths Development Curriculum

Planning and Next Steps

Gallup can deliver this course at your location for groups of 15 or more. Contact inquiries@gallup.com for additional information.

Course Materials

Learner Workbook

The learner workbook provides detailed information from the course. It includes reflection and activity pages for participants as well as valuable ideas about developing students' strengths.

Elementary School Strengths Development Curriculum

The Elementary School Strengths Development curriculum provides 22 lessons to help students discover and develop their unique talents. Each lesson has a detailed lesson plan and a reproducible page to hand out to students.

Middle School Strengths Development Curriculum

The Middle School Strengths Development curriculum provides 25 lessons to help students discover and develop their unique talents. Use this curriculum with middle school students who have completed Gallup's Clifton StrengthsExplorer® assessment. Each lesson has a detailed lesson plan and reproducible page to hand out to students.

High School Strengths Development Curriculum

The High School Strengths Development curriculum provides 25 lessons to help students discover and develop their unique talents. Use this curriculum with high school students who have completed Gallup's CliftonStrengths® assessment. Each lesson has a detailed lesson plan and a reproducible page to hand out to students.

K-12 Strengths Activity Cards

This card deck includes 40 strengths development activities for students of all ages. These fun and engaging activities are designed for students to use on their own, with a partner or in small groups. Educators can also use these activities during their daily interactions with students.

Clifton StrengthsExplorer Resource Guide

This Resource Guide has information about each of the 10 Clifton StrengthsExplorer themes, including a detailed description, additional descriptive words, questions for students and action items for students and adults. This resource also includes brief descriptions of each of the 10 themes.

CliftonStrengths Resource Guide for High School Students

This Resource Guide has information about each of the 34 CliftonStrengths themes, including a detailed description and action items designed for high school students. This resource also includes brief descriptions of each of the 34 themes.

Quick Reference Guide for Clifton StrengthsExplorer

This resource has a short definition for each of the 10 Clifton StrengthsExplorer themes.

Quick Reference Guide for CliftonStrengths

This resource has a short definition for each of the 34 CliftonStrengths themes.
